

Babaji

His message to humanity
& pointers for your life

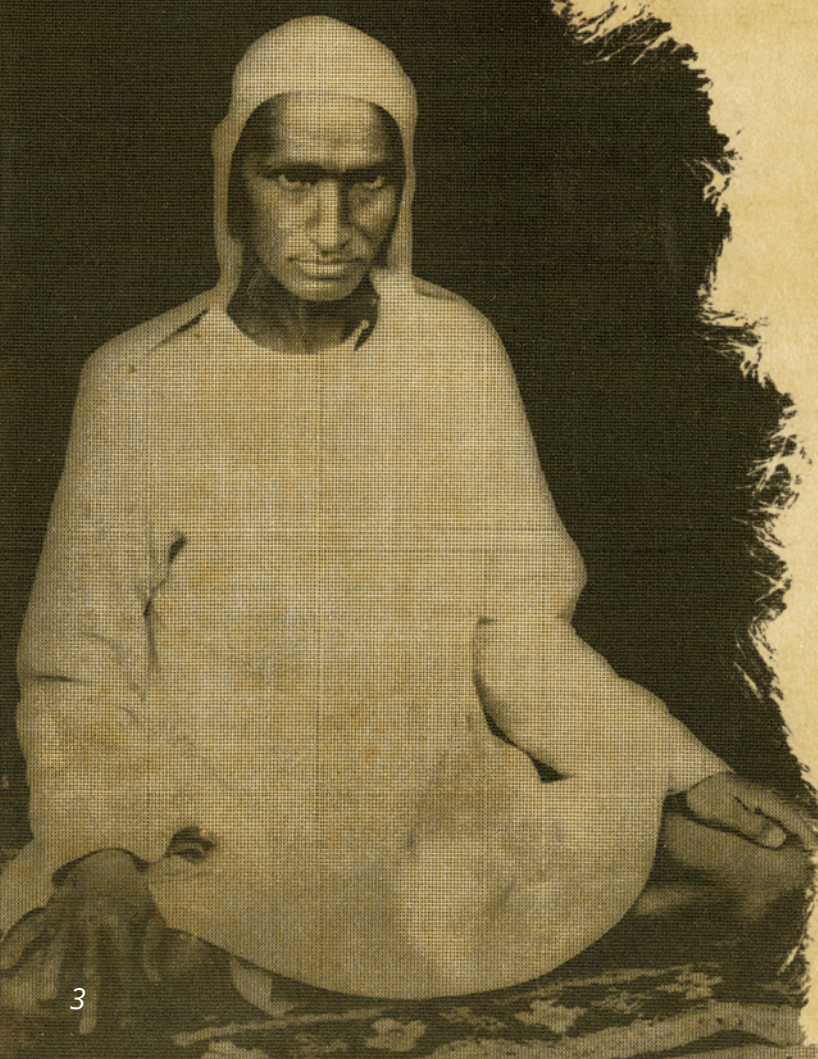

HAIDAKHANDI SAMAJ

*Herakhan Vishwa Mahadham
Distt. Nainital; Uttarakhand, India*

**Blessed are you, having
found this small booklet with
information about Babaji!**

This is an introduction to the teachings of Haidakhan Wale Baba who lived in the foothills of the Himalayas in the Kumaon region, the birth place of many of India's great saints. He was acknowledged as Shiva Mahavatar Babaji, the eternal manifestation of God in human form.

Babaji became widely known to the world after Paramhansa Yogananda wrote the book *"Autobiography of a Yogi"*.

There Babaji is described as an immortal Yogi, the teacher of teachers, guiding humanity since time immemorial and manifesting Himself from time to time in various bodies.

As Haidakhan Baba, He manifested in the early 19th century and left His body in 1922 in a miraculous way with His followers standing by. Through the profound sadhana and prayers of a great yogi by the name of Shri Mahendra Maharaj, Babaji again manifested in 1970 in a cave at the bottom of Mount Adi Kailash in the Himalayan foothills. He came in the body of a young, powerful yogi appearing to be about 18 to 20 years of age. Soon after, He went to the top of Adi Kailash and sat in a yoga pose without eating for 45 days. This was the beginning of His mission as Bhole Baba, the Simple Father.

In His previous manifestation Babaji had constructed a small temple just across the river from the cave where He manifested. The name of this village, Haidakhan, is becoming rapidly more known now in the world. Babaji called it *"Haidakhan Vishwa Mahadham"*, which means the greatest place in the Universe, probably indicating future times.

People were called in miraculous ways from all over the world throughout the 14 years of His last manifestation, and that is actually still happening to the present day. He is not a regular saint or human being. In fact, He is present in the heart of every living being and

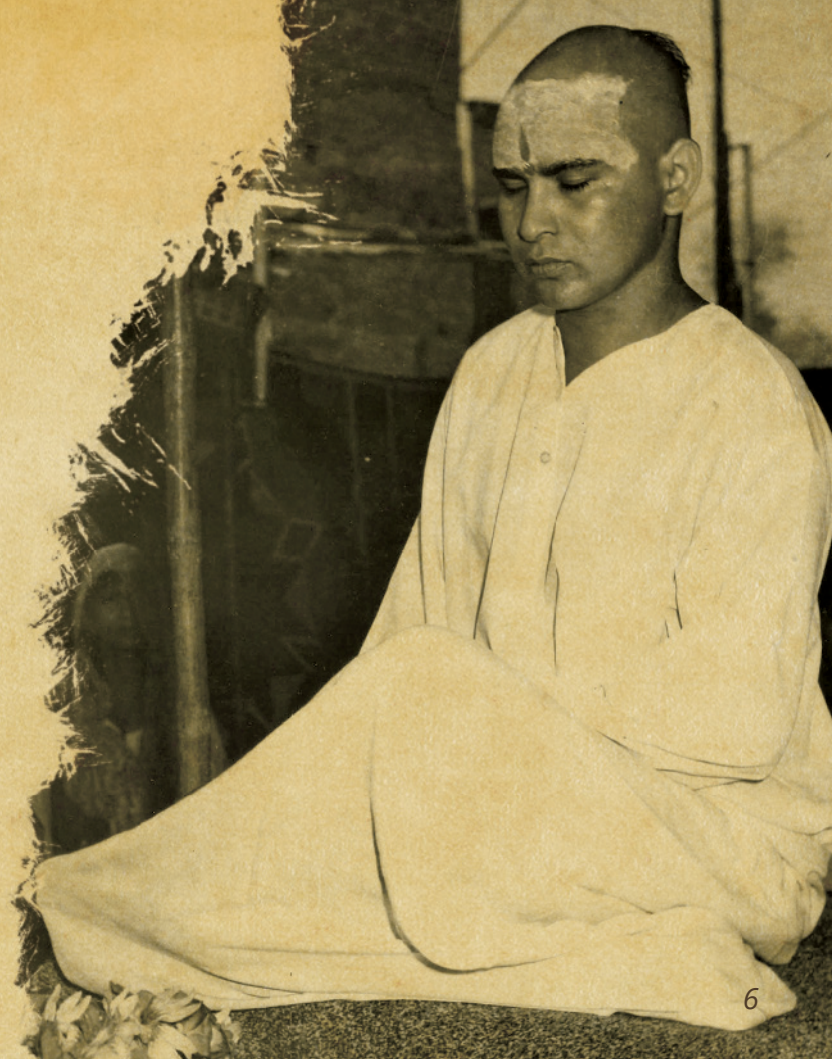

He is woven into the fabric of life itself. Therefore, Babaji is accessible for everybody who has a sincere wish and who is calling Him. He came at a difficult point in time because humanity is in great danger. Babaji came to revive the ***“Sanatan Dharma”***, the Eternal Law of Creation and the root of all religions.

Babaji did not speak much, but He showed us the way to live in harmony with the Divine. His basic message is simple and direct:

Live in Truth, Simplicity and Love And serve humanity and all of Creation by doing Karma Yoga, selfless service, and always remember the name of God.

He also gave us the Maha-mantra ***“Om Namah Shivay”*** (*literally meaning “I surrender to God”*) to repeat either vocally or in silence.

Here, we have His core teachings which He gave from 1981 until His Samadhi on 14th February, Valentine’s Day, 1984. He had come to give a message to the world, and having done this, He left. One of His most beautiful messages is:
“I am always with you”.

1. Babaji

All of my body is meant to dry up one day, so don't care to put too much oil on it. This body is here only to serve people. I am nobody and nothing, I am a mirror in which you can see yourself. I am in your every breath. I live in everybody's heart. All living beings, animals, flowers, plants and stones have been given a form by God and this body has been given a form by God to perform a duty in this world. So even my own body has come only to perform a duty and to serve all human and living beings.

But when human beings come into this world, they forget their duty and fall into the attachment of Maya and into the concepts of "me" and "mine" and so they forget God. I am like fire, don't keep too far away or you will not get the warmth. But don't get too close or you may burn yourself. Learn the correct distance. My name is Maha Prabhujī (the Great Lord)

Babaji Pointers:

"I am Bhole Baba" the Simple Father.

"Babaji means: All people service."

"Those who see the great God in the sun, moon, stars, earth, air, fire and water, and always meditate on Him only, get success in life and are the true devotees."

"One perfect being is enough to change the world. Rama, Krishna, Christ were not many, they were only one... One spark of light is enough to enlighten the universe."

"Do not fear the limitations of time, for I shall come to you and teach you in your dreams."

"God is everywhere, in everything, in the water, in the sky... He is inside you"

"I am no-one and nothing, I am a mirror in which you can see yourself."

"I am harmony"

"I am always with you."

2. Revolution or Kranti

Once Parvati asked Lord Shiva, Her

husband: ***"You have done good work for the people in all ages, but I am afraid for the people in the Kali Yuga.***

How will they safeguard themselves?"

Lord Shiva answered: ***"I will appear in the Kali Yuga and I will create a new State, a new center of religion- a most important place, where I will live and establish all the Gods there."***

Babaji has come to change the world, not by fighting with weapons and armaments. He transforms it by changing the hearts of people through a simple method: the repetition of Gods Holy Name. The vibrations of the Name will change the world. There will be universal understanding - one nation, one family. This is Babaji's intent and it will soon come about.

The great revolution is very near! There is no power in the world to stop it. This is a time of great destruction. Everyone must become spiritually strong and courageous. The whole universe will be involved in this Mahakranti (great revolution).

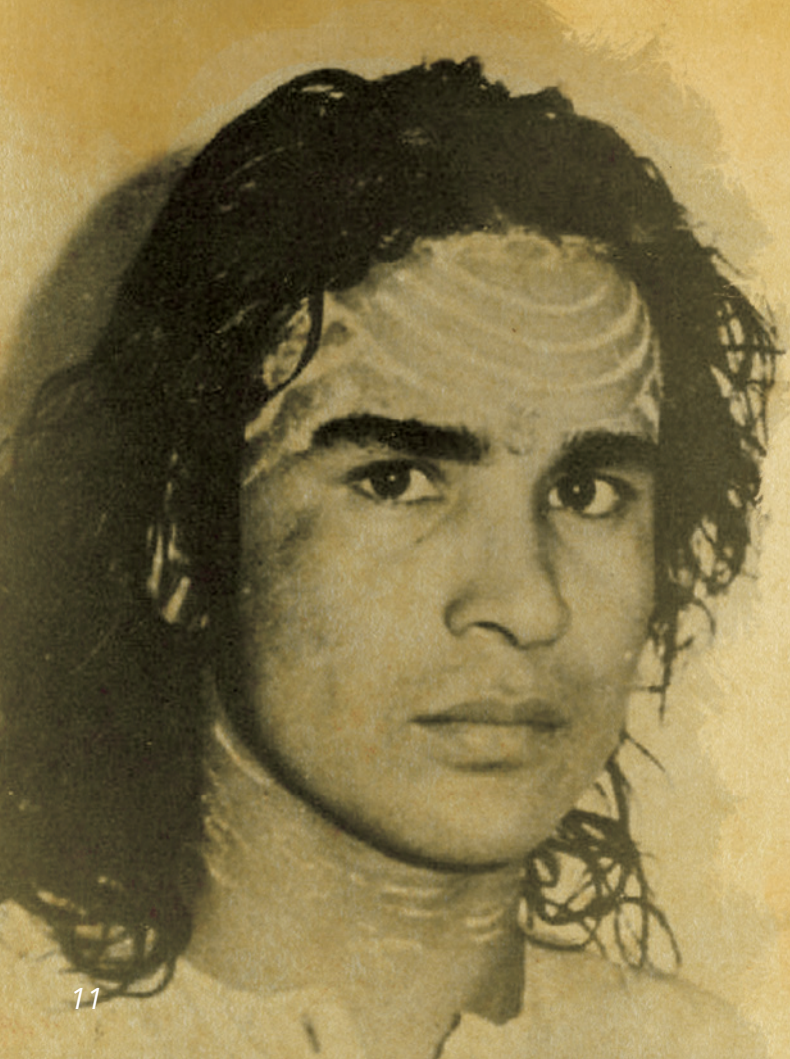

The fact is a great fire of sins and sorrows is burning through out the world. Everyone living walks and works through this fire. At present, not only humanity is in danger, but all sentient and insentient beings of the universe are in danger.

I have not only human beings to consider, I also have to save the entire Creation. How is it possible?

(a long pause) It is quite impossible. The calamities which are coming to this world are unavoidable.

Only he who has strong determination to do good acts and who is strongly devoted to God can survive this destruction. You should not do anything which will do harm to others.

Revolution or Kranti Pointers:

"There is only one way for mankind to be saved and that is by changing the hearts of all people... As long as there is no change of heart, humanity is in great danger"

"Whenever the world faces the most difficult problems, the Lord takes on a human incarnation and comes to fulfil the needs and desires of mankind."

"All of you must bring alertness into your lives. The revolutionary spirit which I want to inspire in the hearts of all of you is for the sake of world peace."

"When the time comes, you will have to walk through fire and water."

"Destruction is a most necessary aspect of Creation."

"Now a change on a vast scale, like those at the time of the Mahabharata, will take place."

"There is an Indian slogan: 'Jai Hind' it means Victory to India. But I want the welfare of the whole universe, so I am starting a new slogan:

'JAI VISHWA'! It means Victory/Honor to the Universe."

3. Oneness

We are all one, with each other and with God.

Be firm like a rock, deep and serious like the sea. Think of the earth as a mother. This is one earth. Don't be divided by thinking of yourselves as belonging to different countries. We belong to one earth. Proceed with this in mind. Look to the future with a vision of good deeds for the whole world, not just for one country. Have courage and patience, and be not afraid of water, fire or great storms. Face them bravely.

Unite in Love to elevate yourselves, each one of you must vow today to sacrifice everything to obtain oneness with yourself. Shri Mahaprabhuji reveals the truth of a mystery to you: the revolution will occur simultaneously everywhere in the world.

Oneness Pointers:

"Seek the Unity where we are all one and the same. I am Unity."

"We are all equal, independent of the country we come from. We are all unified."

"This is a universal family. Have no idea of separation of identity; discard feeling of separateness. Serve all people with mind, body, wealth and brain."

"When you all belong to this whole universe, where is the place for 'I' and 'mine'? We must unite as one universal family and march forward in unity."

"There is a great power in union. If there is unity and love among you, then only can you lead a peaceful and happy life."

"We must work united. We must all work together to complete our task. In this way all work becomes easy."

4. Karma Yoga and Kriya Yoga

There is no such separate thing as Kriya Yoga.

Every action in this world, including eating and drinking is Kriya Yoga. Perfection in work is the real Kriya Yoga.

Only that which brings peace and happiness and all kinds of benefits to people is Kriya Yoga. You must all do service to humanity, THAT is Kriya Yoga.

This Earth is a field of Karma; everyone must be active, working. The great people who lived in the past thrived by doing Karma Yoga. Only through Karma Yoga can all needs be fulfilled.

I will give you liberation only through Karma, so you should not lag behind in your work. Through Karma Yoga you can bring peace, happiness, joy and contentment to the world. You will have good sleep, good appetite and bad thoughts cannot enter your mind. Otherwise, in inaction your minds will always be criticizing others.

All you monkeys and bears! Lord Ram conquered Lanka with the help of hard working monkeys. You monkeys! Only wagging your tail is not enough.

Karma is an inevitable law of cause and effect by which all living beings reap the fruits of their actions and thoughts... The law of karma is above all things. Karma starts when movement starts in the mind. To stop karma, we must bring the mind to that state of silence and voidness beyond which God can be known... Otherwise, as long as a man breaths, he is creating karma. No one can remain without action, even for a minute. Therefore, learn how to dedicate your every action to the Lord.

When the whole world is burning with the fire of sins and sorrows and the flames are about to swallow the world, Karma Yoga is the only way by which humanity can be saved. Phuro! Be Inspired!

Karma Yoga Pointers:

"Show the world ideal actions. Service to humanity is service and worship of God."

"In this age it is not possible to renounce the world. The only practice of renunciation now is to offer all work and actions to God. If you want God, be ready to devote everything to God."

"No work is low or bad in this world, if it is done in the right spirit."

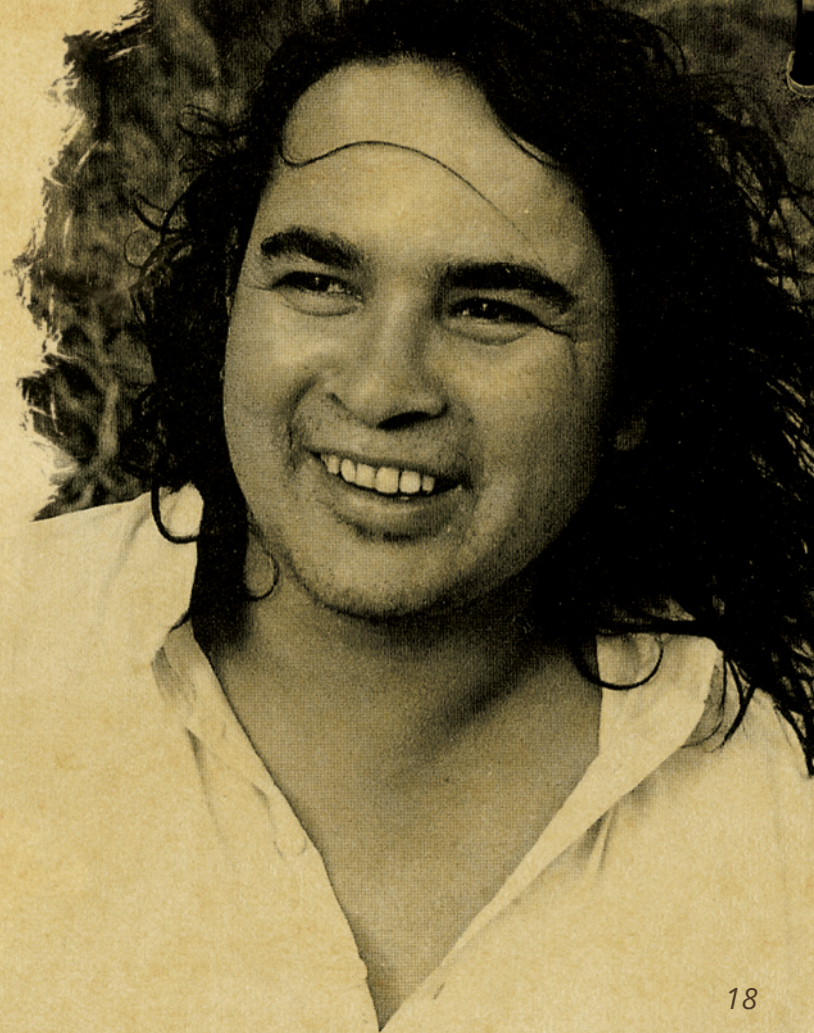

"There are many kinds of Yoga, but Karma Yoga is of supreme importance. Karma Yoga must come first, and then other types of Yoga can be added."

"Whatever money comes to you, spend it on good purposes."

"You must consider work as real devotion. Do your duty lovingly."

"Learn to talk less and work more. This is the field of spiritual practice."

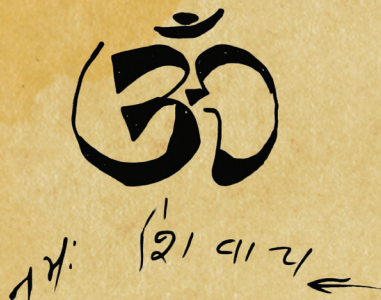

"By working hard, a man can achieve peace within himself and in the world around him. If everyone works diligently and with love, there will be peace throughout the world."

5. Impermanence

All this world is transitory, only God's Name is eternal. The fact is that the geography, the structure of the world, is always changing. To attain salvation is the highest achievement of man. You must seek liberation and help to liberate others.

Attachment to material things makes man cling to life. While you are attached to life and afraid of death, you die with that fear and that weight clinging to you. If you die without fear and remembering the name of God, then the soul leaves the body free from that fear and attachment. If you are reborn, your soul is still free from that fear. If you die in Unity, you are free from rebirth unless you will it.

Babaji's autograph

Impermanence Pointers:

"This world is transitory; the Name of God is the true reality."

"I want to see people liberated who have become dependent on the illusions of the material world."

"Only the one who has surrendered completely to the will of God is saved."

"Learn not to make projects and fantasies about your future. Forget your past and old habits. Learn how to concentrate your mind on the Divine only."

"Why do you attach your minds to the transitory things in this world? Attach yourself to God."

"Let Divine Grace liberate you".

"The path of God-realization is a most difficult one. Few are those who will walk it. It is as difficult as walking on the edge of a razor. The grace of the Guru is everything. No knowledge is possible without the grace of the Guru."

"Attach yourself to God. Be brave and always walk on. There will be many mountains to cross, but do not stop until the goal is reached. Be strong and never feel disheartened."

6. The Name of God

It is of the greatest importance that the repetition of God's name increases daily. In this way, your heart and mind will be purified. Only then will you find God in yourself.

Man's mind is very fast, faster than the wind. By doing work while repeating God's name, your mind becomes cleansed of thoughts and useless, negative thoughts cannot enter. You cannot comprehend the high value of karma while repeating God's name.

The mind can only be purified by japa. This is the only medicine for the disease of the mind. While your mind and heart are impure, how can God live in your heart? The water to clean your heart is the Name of God, so teach everyone to repeat the Name of God everywhere.

I do not want idle people. Japa does not take the place of Karma. Japa and work go together. You must be active in God's work, like King Janaka who ruled his kingdom always with his mantra in his mind. Arjun fought the Mahabharata battle, constantly remembering God's name.

The Name of God Pointers:

"When the Name of the Lord, as His supreme power, enters the heart, happiness begins to pervade it. By remembering His Name, the Lord Himself comes to reside within the heart, and the devotee immediately reaps the fruit of all his endeavours."

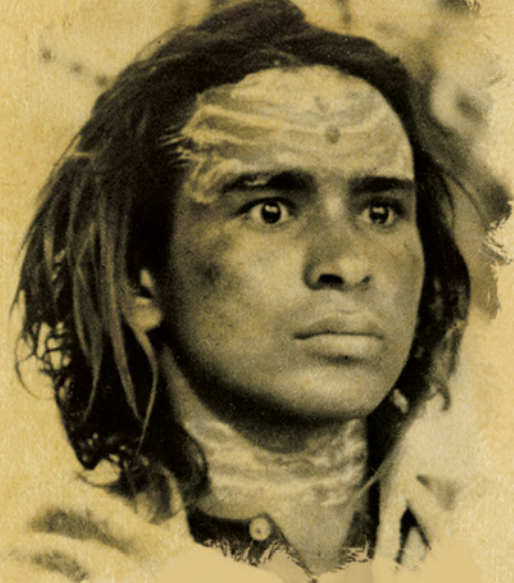

"Every moment, in each breath, while eating, sleeping, and working, remember the Lord's Name."

"No place must be without the Name of Om Namah Shivay; on every street, in every house, it must be spread... This Om Namah Shivay is like divine nectar; feed everyone with this nectar."

"When I come to this world, I always come to give divine nectar, but people always choose poison."

"The Lord's Name is like divine nectar; repeat it all the time."

7. Courage and non-violence

All of you are soldiers of Haidakhan. Do your duty with faith and devotion. You must remove hatred and jealousy from your hearts to be of real service. All of you must climb the mountain to victory.

I want to weed out the prevailing non-violence in the world. It is a cause of apathy and idleness. This non-violence has cooled the blood of man so that it has become like cold water. This attitude of non-violence produces a lack of discrimination between good and evil. Everyone should lead a life of bravery and courage.

A man without courage is like a dead man. Life without courage is no life.

At present, many atrocities are being committed in the world. Human beings are treated like animals. No one has had the courage to stand up against these atrocities, but everyone should be brave and resist them. Everyone must be of firm determination and stick to what he believes to be true. Be constant in your actions and dutiful.

Courage and non-violence Pointers:

“To become strong does not mean to become harsh and heartless. To become strong means to grow beyond pleasure and pain, beyond heat and cold.”

“There is no place for fear, people must work fearlessly in the world... When a man is fearless, no man can stand against him in battle - either a battle in material life or in spiritual life.”

“All of you must be alert 24 hours a day. Be a soldier of God and act with courage and discipline.”

“When the time comes, you will have to walk through fire and water.”

“Do not imitate. Be strong. Be upright. Do not lean on the crutches of others. Think with your own head. Be yourself.”

“This is not the time for sleep. Awake family, friends and country! Awake! Every man and woman in this world must live and be alert, not lazy like death.”

8. Sanatan Dharma

The Sanatan Dharma has been followed for millions of years and no one is able to trace the date it began. You may try to understand this spontaneous religion this way: the dharma (law of nature) of fire is to burn; the dharma of water is to be wet; the dharma of air is to blow; Can one tell on what day the fire started to burn, the water to be wet, and the air to blow? No one can say.

Sanatan Dharma is like a great ocean. From that ocean each country has dug canals according to their needs and purposes. But canals cannot give total satisfaction as the ocean gives complete bliss. Until now, people only had knowledge of their own canals. Now the Lord is showing us that we aren't just bubbles in a canal, but rather bubbles in the great ocean. As long as we have individuality, we are seen as bubbles; when we disappear, we are one with the ocean.

Sanatan Dharma Pointers:

"You must work to elevate humanity and eradicate pride, jealousy and hatred."

"There is no saint without a past and no sinner without a future."

"All perfection and divine virtue are hidden within You - reveal them to the world. Wisdom, too, is already within you... Let it shine forth."

"Seek harmony in everything that you do."

"Think of the Earth as a Mother. Look to the future with a vision of good deeds for the whole world, not just for one country."

"We must perform those actions which will benefit others - and not only other people but the whole of Creation."

"Service to humanity is the best service to God. Our motto is Work is Worship'."

9. Bhajan and Kirtan

Kirtan should come to you naturally and through your soul. Don't sing kirtan as though you are competing or fighting with each other. Do not sing like you are taking part in a theatrical performance. It should be sung with love and in harmony, with a slow rhythm.

Bhajans should be sung like a flower gives nectar, sweetly and softly. Drums, chimta's and other instruments should be played quietly. Some bhajans are more appropriate for singing at different times of the day. Listen and learn to make the proper selections for the morning and evening.

When you make music, it should touch the heart so that it leaves a memory on the mind. Whatever you do should have strength in it.

Bhajan and Kirtan Pointers:

"In the world today, fire is bursting out on one side while nectar flows on the other. You must decide if you choose fire or nectar."

"Nothing can be achieved without knowledge and yet everything can be achieved just through a pure heart."

"Kindle the light in yourself, then kindle it in others - one by one."

"Don't use intoxicating drugs, but learn devotion and purity."

"Appreciate the joy of life."

"Devotion (Bhakti) and faith are the basis of everything. Through devotion alone one can achieve everything."

10. Truth-Simplicity-Love

The Creation is vast and there are many doctrines. Adhere to one principle: Truth, Simplicity and Love, and practice Karma Yoga. This, more than others, is an era (yuga) of great destruction. Man has become enslaved by his lower nature. I have come to guide humanity to a higher path. I do not belong to any particular religion but respect all religions. I seek the elevation of all mankind.

At present, demonic influences have engulfed man. The leaders of all countries have totally ignored their people's needs and interests. There is no safety of person or property. Man will fight and devour man and destroy each other. First, destruction will take place, then a lull and then peace will prevail.

Some of the countries will be completely destroyed. Prayer will be the only safeguard and savior against destruction. Have full faith in God.

Truth - Simplicity - Love Pointers:

"Truth is supreme and nothing in the universe is more important than truth."

"If, with full faith and devotion to God and a firm determination, people follow the path of Truth, Simplicity and Love with Karma Yoga, they will reach their goal."

"Remove hatred and jealousy from your heart; the same was taught by Jesus Christ. Where there is jealousy and hatred there is no religion."

"You must all walk the Path of Truth and give right teachings and instructions to the world. Everyone should walk the Path of Truth and teach family, friends and all."

"Like spreading light by lighting one candle to another all around a room, so we should spread Love from heart to heart."

"True reality is to proceed on the path of Truth, to keep the company of saintly people, and to render service to all."

11. Faith

To devotees I give Abhaya Dhan, the blessing of My protection, by which you will always be protected and should be fearless. I am responsible for you and your liberation.

Your faith must be as mighty as Mount Meru. Even the sun and moon can move from their course, but the faith of a devotee should not be shaken. A true devotee will be ready to shed his life for God and will have faith to his last breath. Never be moved by false doctrines. You are protected at every moment.

Faith Pointers:

"If you are worthy, I shall show you a freedom greater than the one you have dreamed about."

"All of you must be happy and healthy and appreciate the joy of life."

"If you come to doubt, I will give you reason to doubt. If you come suspicious, I will give you every reason to be suspicious. But if you come seeking love, I will show you more love than you have ever known."

"Only the one who has surrendered completely to the will of God is saved."

"All of you have to go beyond the fear of death and hope of life and go on doing Karma Yoga."

"Have faith, everything depends on faith."

12. Humanity

The only religion is Humanity. There must be tolerance and forgiveness. The world now is in a state of turmoil. People are like puppets dancing for demonic leaders. Today's world leaders have created circumstances which make it difficult for people even to breathe.

People are suffering from three kinds of pain: physical, mental and spiritual, and there is only one way of being cured from these. We have to root out inhumanity and replace it with humanity. I want to bring back humanism in the soul of every person.

Our main aim is that there be universal peace. Now the problem of the universe stands facing Me. It is not the problem of one caste or creed but of all living beings of this Creation. It is the problem of the 8.4 million species of sentient beings. In the name of Lord Ram, it is not only the problem of all sentient beings but also of all insentient beings. The task now before Me is to make the goat and the lion drink from the same water source.

I do not want differences of caste, creed, colour or race. There is only one God, who created all human beings in His image. This is why we have to re-establish humanity. You have to gather your courage and leave behind the fear of death. Forget profit and loss, do not be concerned for praise or abuse, march on! The world needs change from its roots upward.

You will have to walk through the blazing fire, only then can this world be saved. Save yourselves and others from the adharma (lawlessness) of the world. We want to bring peace not only to one country, but to the whole world - our aim is universal peace.

Shri Babaji teaches us about the unity of Creation. We are all made of the five elements; we are all of one spirit. In all respects we are one humanity, one human family. Limitations arise from political beliefs and world leaders whose thinking is fixed on time, place and culture, thereby creating differences and separateness. The birthright of all mankind is to love and follow God. Limitations arise from erroneous human beliefs. Shri Babaji has appeared to illumine the minds and hearts of mankind so that unity and harmony may be known to all.

Everyone must take a vow that we are all one and that we must all live in unity. Everyone must remove differences and distinctions from their hearts. We must step forward, keeping in mind the problems that the coming great crisis will bring.

Everyone must use their own common sense and should do their duty without waiting to be told what to do. To do your duty is the greatest worship, the greatest service, the greatest devotion and penance. You must all advance with firm determination.

Humanity Pointers:

"One can follow any religion, practice or path, but one must be humane."

"Love and serve all humanity. Help everyone - Be happy - Be courteous - Be a dynamo of irrepressible joy."

"Service to humanity, is service and worship of God."

"Jealousy and hatred are the two causes by which humanity is ruined. In your lives these vices should have no place."

"The only religion is Humanity."

13. Havan and Mahashakti Dhuni

Havan is that which brings rain, and thus brings grain.

The origin of Creation stems from the havan. The havan is the real form of the Gods. Whatever we offer to the havan goes directly to the Gods who are being invoked. By doing havan, people gain happiness and love for each other. By the smoke from the havan, harmful germs in the atmosphere are destroyed and the good bacteria, useful to life, grow in it. It provides plenty and increases prosperity in the world.

The Fire is sacred and is the witness of spiritual practice. It is considered divine. In ancient India, the Rishis guarded their sacred fire most carefully and kept it clean as it was believed to be the residence of divinity. Sitting by the Dhuni purifies one's vibrations.

This Mahashakti Dhuni is one of the wonders of the world. It is a living consciousness. The Divine Light is always present in the Dhuni. The eight sides symbolize the eight arms of Jagadamba, the Universal Mother.

In the Name of Lord Ram, Mahaprabhuji has given a boon to this place- that whosoever drinks the Holy water of Ram Dhara and whoever comes to have darshan of the Dhuni, takes vibhuti (sacred ash) and performs any spiritual practice here, will have the guarantee of being liberated. That is why it is called Moksha Dham, Liberation Sanctuary. It is a manifestation of Lord Ram and a center of pilgrimage.

Babaji closed His speech by saying:

"Without Dhuni no meditation, without Guru no knowledge"

Havan and Mahashakti Dhuni Pointers:

"Be rid of attachment and be prepared to burn your very bones, if necessary, to secure the public good and righteousness."

"All religions lead to one point and that point is God"

"If you are at peace, I am at peace. If you are troubled, I am troubled. If you have problems, I have problems."

"A change in the world is coming soon. Change is nothing new; it is the law of nature. The rhythm is that those who are born must die and those who die must be born."

"I am like fire, don't come too close or you will burn yourself. Don't stay too far away or you will get no heat."

"My Fire is upon you and it will not leave you, not in battles nor in times of rest."

"One spark of light is enough to enlighten the universe."

"PHURO - Be inspired by the divine spirit."

14. Haidakhan

Shri Shastriji:

This "Vishwa Mahadham" is not an ordinary place. It is special because Lord Shiva, in His mortal Body is living and moving here. Revered Shri Mahendra Maharaj himself has written that Haidakhan is a wonderful place - in all ways it is giving pleasure - the beauty of the place enhances the mind. Every particle of this place has the power to enlighten us.

Babaji:

For the sake of Lord Ram, all of you are sitting here under the sacred Peepal tree. This is a most sacred and auspicious

tree. Divine beings are living under it and you are blessed to be sitting under this great, sacred tree. Many years of penance have been done under it (by Shri Mahaprabuji) in ancient times.

There are many holy places that are limited to a particular religion. There have been and are many temples, churches and religious centres, but this is the only universal pilgrim center which gives this place its great significance. All the Gods and Goddesses - Divine Beings - reside in the mountains around here.

The whole world will be benefitted by the hard work and Karma Yoga you have done in Haidakhan. People from all over the world who visit Haidakhan and see the hard work you have done are extremely pleased by your performance. They feel elevated, and when they return, they cite this as an example. All the hard work you have done here is an education for the forthcoming generations.

The fact is all of you have done very hard work here, you have made this place very happy and beautiful and it is also prosperous. Due to that, thousands of people are coming here and getting peace of mind. This is the result of your Karma Yoga. This work will go with you wherever you go. This is spiritual work, not material. This is neither My work nor yours; this is the work of the whole universe - nay, of the whole cosmos.

Those who live in Haidakhan, especially the fakirs of Haidakhan, must be very clean. They must have a daily bath, clean their clothes, and everywhere they must observe

neatness and tidiness. Things must be kept in order.
Cleanliness is the first step in reaching God.

A new world is being created here. What you see here is already the beginning of the new world. Here in Haidakhan the old world has been destroyed. I am teaching you this: The New World begins from Here.

Haidakhan Pointers:

"There will always be hills and mountains to overcome on the way to God. Do not be disturbed by the mountain falling down. It is the duty of the mountain to fall down, and it is the duty of the soldiers to move the mountain."

"To do Karma Yoga it is vital to keep your body healthy, so follow these teachings about cleanliness and health and teach others."

"All who come to the ashram must take responsibility for its care."

"A leader must be selfless, one who desires to work for the upliftment of humanity. They must be able to encourage people."

"Those physically distant from here should not think they are far away - they are equally close to Me."

"You are the messengers of the revolution."

"Jai Maha Maya Ki! Always Jai Maha Maya Ki (which means Honor or Glory to the Great Primordial, Creative Energy) must be your slogan, your greeting to each other."

15. The Heart

"I appear in many forms but it is best that I appear in your Heart. This is where I am always. This is where I speak to you. This is where you speak to me."

"Cleanliness is next to Godliness."

"Remove hatred and jealousy from your heart!"

"Appreciate the joy of life!"

"Spread love from heart to heart".

"See God and goodness in every face".

"If you come seeking love, I will show you more love than you have ever imagined."

"As long as there is no change of heart, humanity is in grave danger."

"While your minds and hearts are impure, how can God live in your hearts."

"You can only know Me through love - divine love, love for God, without any selfish purpose."

"I want to raise the character of man so high that people as different as the lion and the goat can live together without jealousy or hatred - only in love."

"Never doubt My love, not even when I send you challenges and tests, both inside you and in the outside world, because everything is for your highest good and for your inner growth."

"Nothing can be achieved without knowledge, yet everything can be achieved simply through a pure heart".

"Let your life be that of a rose. In silence, it speaks the language of fragrance."

"I live in everybody's Heart, in your every Breath".
